## PROFILE

Full-stack Developer with expertise in Next.js, TypeScript, and TailwindCSS, specializing in real-time data handling and scalable UI. Contributed to Web3 projects on OnlyDust, including AIZKTEC, Stellar, and Starknet. Experienced in wallet integrations using Wagmi + Viem for Ethereum and Starknet-react/core for Starknet. Passionate about DeFi and building seamless user experiences.

## WORK EXPERIENCE

**OnlyDust**                                    2025- PRESENT
Web3 Contributor

- Contributed to multiple blockchain ecosystems, including AIZKTEC, Stellar, and Starknet.
- Developed and optimized decentralized applications, ensuring seamless integration with Web3 technologies.
- Built wallet connections using Wagmi+Viem for Ethereum and Starknet-react/core for Starknet.

**Shoplyve**                                    2023 - 2024
Front-End Developer

- Led front-end development for a sales dashboard, focusing on performance insights and user experience.
- Integrated advanced UI/UX principles using Next.js, TypeScript, and TailwindCSS.
- Collaborated closely with backend developers to ensure seamless API integration.

**Freelance**                                    2022 - Present
Front-End Developer

- Built and maintained responsive, high-performance web applications for various clients.
- Implemented scalable, component-based architectures using React and Next.js.
- Developed and deployed custom UI solutions tailored to client needs.

## EDUCATION

**Bachelor of Computer Science**                2023 - Present
Chukwuemeka Odumegwu Ojukwu University
Anambra State, Nigeria
